AFTER YOUR SURGERY:

- Remain quiet the evening of surgery. A short nap is advised. No reading or computer work the first day. You may watch TV. Increase activity as your comfort and vision allows. Take your normal over-the-counter pain medication if needed.
- Your vision will be foggy for the first day.
- You may experience some tearing, burning, stinging, light sensitivity, redness, and foreign body sensation.
- Do not drive until after your 1-day post-op appointment. You may return to work and/or drive when you are confident with your vision and as your comfort allows.
- If you notice increasing pain or a sudden decrease in vision – call us immediately.
- Use **Preservative Free Tears** a minimum of 6-8 times per day, or more often as needed for at least 2 months after surgery.

OTHER IMPORTANT PRECAUTIONS:

- Your vision may fluctuate for the first several weeks.
- You may experience halos and glare around lights at night for the first couple weeks.
- No eye makeup for 3 to 5 days. New mascara is recommended after the procedure.
- Avoid getting soap or water in your eyes while showering for the first week.
- Wear your shields while sleeping or napping for the first week.
- Do not rub or bump your eyes for at least 2 months after surgery.
- No swimming or hot tubs for 2 weeks. No high-impact water sports for 3 months.
- You should protect your eyes from bright sun and wind for 1 month.
